ALK Positive UK  
**Supporting  
Patients  
and their Families**

# Supporting Patients with ALK-Positive Lung Cancer

**Stronger  
Together**

**ALK Positive UK** is a registered charity established by patients and carers. Our purposes are to:

## Support

We provide a wide range of support services including a forum where patients and their families can exchange information about their diagnosis and treatment, and where they can give and receive mutual support.

## Empower

We are a source of information for patients so that they are better informed about their condition and they are empowered to ensure that their healthcare providers employ best practice.

## Advocate

We advocate on behalf of patients to ensure that they receive a high level of care wherever they live in the UK and to promote improved patient outcomes.

## Campaign

We campaign for early diagnosis and to raise awareness of lung cancer in non smokers.

**We have a private Facebook support group** where patients and their close families exchange information and experiences. You will receive a warm welcome.

[facebook.com/groups/ALKpositiveUK](https://facebook.com/groups/ALKpositiveUK)

## We support patients with:

### Information

Our website provides a wealth of information and advice about ALK-positive lung cancer.

### Wellbeing

A diagnosis of lung cancer is stressful. ALK-positive patients can live for many years and the stress and anxiety doesn't go away. We offer free online life-coaching plus access to advice.

### Conference

We hold a national weekend conference where patients can hear from and question ALK-positive experts and meet other patients. The conference is free to UK patients plus one and we pay travelling expenses.

### Lunches

Three times a year, we hold subsidised lunches at 12 locations throughout the UK. We believe that it is beneficial for patients and close family to meet others who may live near.

### Hardship Fund

We offer grants to patients and their families who are in financial hardship as a result of their diagnosis.

### And so much more...
